‘3096 Days’ (known as ‘3096 Tage’ in German) is a German language true-crime drama film directed by Sherry Hormann. The film revolves around Natascha Kampusch, who is kidnapped as a ten-year-old by a man named Wolfgang Přiklopil and spends nearly eight years in captivity before escaping. It is based on the real-life ordeal of Natascha Kampusch and is one of the most well-known cases of abduction in Austria. If you wish to watch this gut-wrenching true story, here’s where you can stream ‘3096 Days’ online. What is 3096 Days About? In ‘3096 Days’, a young girl, Natascha Kampusch, from Vienna, Austria, leaves her home on March 2, 1998, as usual. However, when she does not arrive at school or back home, her worried family seeks the local police’s help. Kampusch is abducted by a man named Wolfgang Přiklopil and taken away in his white mini-van. She is incarcerated in his house in a cellar below his garage. The police suspect child pornography or organ theft as the motive behind the abduction of Kampusch and carry out an extensive search of vehicles after an eye-witness reports seeing two men kidnap Kampusch and forcefully take her in a white mini-van. The police arrive at Přiklopil’s doorsteps investigating the case but leave after being convinced that he is using the mini-van to transport the rubble from his house’s construction work. Kampusch spends the next eight years living in the small room of 54 sq ft and makes various attempts to escape. She is raped by Přiklopil and starved so that she is too weak to attempt an escape. Kampusch successfully escapes from Přiklopil’s house on August 23, 2006, nearly 3096 days after being captured. The film details how Kampusch survived in captivity for eight years. Is 3096 Days On Netflix? ‘3096 Days’ isn’t a part of the wide variety of entertainment titles offered by Netflix to its subscribers. Instead, you can check out ‘Natascha Kampusch: The Whole Story,’ a true-crime documentary about the same kidnapping case. Is 3096 Days On Amazon Prime? Amazon Prime doesn’t offer ‘3096 Days’ as a part of its subscription package or on-demand. While it may become available in the near future, until then, you check out the documentary film ‘Kidnapped: Natascha Kampusch’ (featuring the personal accounts of her kidnapping from Kampusch herself) on Amazon Prime. Is 3096 Days On Hulu? Unfortunately, ‘3096 Days’ isn’t a part of Hulu’s impressive catalog of entertainment titles, including multiple spine-chilling true-crime films. Alternatively, you can choose to stream ‘10X10’, a thriller film about a woman’s kidnapping by a man with secretive motives. Where to Watch 3096 Days Online? ‘3096 Days’ is available to purchase on VOD Platforms such as AppleTV, Google Play, iTunes, and Microsoft Store. How to Stream 3096 Days For Free? Theirs is currently no way to stream ‘3096 Days’ for free as the film is only available to buy on-demand. We also sincerely appeal to our readers to not use any illegal methods and pay for the content they wish to consume. The Free Premium period has ended, you can continue to help by staying home and enjoying more than 175,000 Premium Videos from more than 2000 studios SAN FRANCISCO (AP) — Three children ages 11, 13, and 14 and an 18-year-old beat and robbed a 70-year-old Asian woman last month inside her San Francisco apartment building and two of them have been arrested, police said Monday.The woman was outside her Chinatown building when the suspects approached her on July 31 and spoke to her, said San Francisco Police Chief Bill Scott.Unable to understand them because of a language barrier, she went into the building's lobby and the suspects followed her, Scott said. Then they beat and robbed her before fleeing, he said. The attack was recorded on surveillance video.“The victim was transported to a local hospital and thank goodness her injuries were not life-threatening,” said Scott, who did not identify the woman.The attack came amid a wave of assaults against Asian Americans in San Francisco and across the country that started when the coronavirus pandemic took hold in the U.S. Scott called the ages of the younger suspects sad and shocking.He said detectives identified the suspects as 18-year-old Darryl Moore, of Oakland, and the three juveniles.The names of the juveniles won't be released, and the 11-year-old won't be charged in the case due to his age. The other three face robbery, elder abuse, false imprisonment and conspiracy charges, Scott said.Moore, the 11-year-old and 13-year-old suspects were arrested by Santa Clara County authorities on Aug. 10 by officers with the Milpitas Police Department on accusations of an unrelated crime there, he said.Moore is still detained at the Santa Clara County jail. It wasn't immediately known if he had a lawyer who could speak on his behalf.The 13-year-old suspect was booked at the Santa Clara Juvenile Hall and was being transferred to the custody of Alameda County, where officials booked him on the warrant for his San Francisco arrest, Scott said.The 11-year-old was transferred from Santa Clara to the custody of the Alameda County Assessment Center. The 14-year-old has not been located but there is a warrant for his arrest, Scott said.This story has been corrected to say that two suspects, not four, have been arrested Copyright 2022 The Associated Press. Don’t know what to do? Here’s everything you need to know about disputable Credit Card transactions and how to get your money back in such cases. Anjali used to pay her Credit Card dues on time. However, she never bothered to cross check her Credit Card statement. One month she happened to check her statement by chance and was stumped to see an inaccurate, expensive entry. Since Anjali had not made any such transaction, she contacted her Credit Card issuer immediately. And thankfully she checked the statement before making the payment too. Additional Reading: Managing Credit Cards E-statements Anjali’s is not an isolated case. There have been many instances when such cases have been reported – be it a fraudulent charge or a duplicate charge or mistakenly charged transaction. This is why we keep telling that you should always review your Credit Card statement without fail. This will make it easy to identify inconsistencies, bring it your issuer’s notice, and reverse the wrong charges. In the case of lost or stolen cards, make sure that you inform your Credit Card issuer at the earliest so that your account can be frozen to avoid any fraudulent transactions. Here’s a short list of the transactions that you can dispute and get a reversal: Any transaction that wasn’t authorised by you or anyone who has access to your card can be disputed Any fraudulent transactions made from your card can be reversed Charges on your card statement that do not match with the receipts you hold. For example, if you had made a transaction for Rs. 500 at the market, but your card was charged Rs. 1,000 by the merchant, then you can ask for a reversal of the extra charge Duplicate charges can be disputed too. For instance, you bought a product online, but the merchant charged you twice for the same purchase, then you can raise a refund request Refunds that have not been processed can be disputed If you’ve made a transaction but cancelled within the cancellation period offered by the merchant, you can demand a reversal of the charged amount If you’ve enabled auto-payments on your card and then cancelled them, your card isn’t supposed to be billed further. In case it still gets debited post cancellation, you can raise the issue and ask for a reversal ATM withdrawals can be disputed if the amount dispensed didn’t match the amount entered, or if the ATM didn’t dispense money but your account was debited Additional Reading: 10 Smart Ways to Avoid Credit Card Frauds Now that we know the different transactions that can be disputed for reversal of the deducted amount, let’s consider a few of the common scenarios and how to get your refund as quickly as possible in such situations: Online Transactions And Refunds Before seeking refunds for cancelled orders, it is important to understand that each merchant website has its own terms and conditions for refunds. Some websites allow complete refunds of funds for all cancelled orders within a stipulated time period and no questions asked. And a few others do not return the funds as cash but give the users the option to use the funds to buy any other product of the same value from their website. Before buying goods from any online website, it is necessary to understand their terms and conditions when it comes to refunds and order cancellations. Cool? A refund usually takes about 7 to 14 working days to reflect. Additional Reading: 11 Tips To Scam-Proof Your Online Transactions Cancellation Of Purchase Through Credit Cards Users can cancel any Credit Card transaction for any purchase online or in brick-and-mortar stores. There are two options to cancel the transaction. The first one is direct cancellation of the order in which case the purchase made is considered to be null and void, and any payment is reversed to the account. The second method is the demand for a charge back. Charge back is a protection offered by Credit Card companies allowing users to cancel their purchase if they are unhappy with the product or services. In the case of a charge back request, the card issuer will reverse the amount billed on the Credit Card and not pay the same to the merchant. Charge back safeguards consumers’ interest for any faulty purchase, although claims must be filed within 180 days of the purchase date. Double Swiping Of Credit Cards Rahul purchased some groceries using his Credit Card. The sales executive at the cash counter swiped his card, but the sale charge slip did not emerge from the swipe machine. Rahul, on the other hand, got an SMS text alert on his phone. Unsure of whether the transaction had gone through or not, the sales executive swiped Rahul’s card again even though he showed the SMS alert. After swiping the card again, another SMS text was received by Rahul and a charge slip emerged from the swipe machine. This was clearly a case of malfunctioning of the POS machine, but Rahul was charged twice. Double swiping of Credit Cards is quite common. A lot of users do not even realise they have been charged twice. If your card has been swiped twice, check with your bank on the transaction details of both purchases. The banks then forward the details to the merchant for reversal acceptance of one transaction. Some genuine merchants also offer cash reversal to their clients on the spot in case of double swiping of cards in order to help them save their time and effort for reversal. Additional Reading: Epic Credit Card Frauds And How to Avoid Them Possible Options In Case Of Non-Reversal Of Funds In case the online merchants or card companies fail to revert funds after multiple reminders, consumers have the option of approaching the consumer court. And if the merchant hesitates to refund the money, the consumer can approach a district forum court. In the case of online transactions, get in touch with the online merchant directly using their ‘Contact Us’ page. You can also use their social media handles, and file a formal complaint. Most genuine online merchants try and resolve all consumer complaints at the earliest as any bad publicity can be detrimental to their business in the long run. We hope you’ve learnt a lot about Credit Card transactions and reversal of funds, haven’t you? Get in touch with us if you have any questions or comments on the same. *First published in 2014; revised in 2017.
